

Service Bulletins

AMP Reference: IAL/777/T Revision 00 Initial

Service Bulletins

This section outlines tasks to be carried out following Service Bulletin (SB) implementation.

We will note the Service Bulletins with the following headings:

Rev. Code	N=New, R= Revised & D=Deleted. R will be followed by the revision number. All new, revised or deleted tasks are given revision codes, in comparison to the previous revision.
SB/SIL/ISI NO.	Service Bulletin Number / Service Information Letter Number / In Service Information Number as applicable.
Location	Engine or Airframe SB/SIL/ISI
Description	Title Summary of task.
AMP Interval	This column provides the time limit for repeating the task. Task intervals are specified in terms of flight hours, elapsed clock hours, cycles, calendar time, letter checks or transit checks (TRs).
Comments	Additional information as required such task accomplished elsewhere.
